# ACT PREP COURSE

Better Preparation = Better Results

Space is limited, so reserve your spot today!

*When it comes to taking standardized tests, there are essentially two ways to maximize your score. You can learn strategies and skills for making better answer choices, or you can review the content that the test covers. At CLC, we focus on teaching students proven strategies to improve their score, but we also perform a question by question analysis of your pre-test that reveals specific content that can be reviewed quickly and efficiently in order to maximize your score!*

**12** hours of small group, focused instruction

**10+** practice exams

**8+** weeks of preparation

**7+** hours of proctored testing with flexible scheduling
